

We're Taking Care of Business

Next Level WORx takes care of business by offering wellness and fitness consultation and services that can be provided at your worksite including fitness classes, stress management, smoking cessation, and weight management programs.

We can help you put together a complete wellness program for your employees or simply provide those services you choose including:

- Health-related 30 minute topics
- Health Screenings
- Substance Abuse Education
- Disease Prevention information
- Blood-borne pathogen training
- Carpal tunnel prevention
- Hearing conservation
- Lifting training
- Balancing work and personal life
- Other areas of your choice

Our immunization program provides convenient immunization services for your employees. Services can be provided at your site or one of ours.

You can arrange for professional support for policy review, safety plans, regulatory compliance, training opportunities, or even a comprehensive plan for loss reduction.
