

# CareXtend

When an employee group is not quite large enough to support a full on-site clinic or is geographically dispersed, our virtual clinic option, CareXtend, may be the right solution.

CareXtend Clinics are single room clinics staffed with a "Care Concierge" who can assist our off-site Medical Providers during the physical examination utilizing state-of-the-art digital diagnostic equipment. To save costs, the medical provider joins the visit via secure video link from another location. However, unlike traditional telemedicine, the visits include vital signs, complete physical examinations, lab draws, and other routine in-office testing.

## CareXtend Clinics can provide the following services:

- Primary Care for chronic health conditions including lab draws
- Urgent Care for acute illness
- Minor Injury Care that does not require x-ray
- Some Initial and Follow-up Work Injury Care
- Weight Loss Counseling
- Smoking Cessation
- Biometric Testing and Health Risk Assessments
- Other services can be outsourced to our partners depending on the needs of the employer

These clinics can be implemented in a space as small as a 9' x 10' provided by the employer. Next Level will furnish and outfit the space with state-of-the-art equipment that will allow our off-site medical providers to interact seamlessly with the on-site care concierge. Next Level provides staffing and supplies.

One time implementation fee for each site

Monthly pricing is dependent on hours of operation, staffing requirements, and scope of care

# Subscription Plan

## Next Level Subscription Plan

Now your employees can enjoy access to any of our convenient Greater Houston Next Level locations with the Next Level Subscription Plan. This plan is a per member/per month plan, with you, the employer or organization, acting as Plan administrator.

### Plan includes:

- \$20 time of visit co-pay
- All locations are open until 9 pm nightly
- On-call nurse line during Next Level Urgent Care business hours
- Per member per month cost is scaled based on size of the company
- This plan is outside of standard insurance plans

## On-site Clinics

For large employee groups in a close geographical area, developing a clinic for employee use in the workplace can be a great benefit. Employees get easy access to low cost or cost-free medical care. Employers enjoy the benefits of reducing lost time from work, preventing the need for more expensive crisis care, and maintaining a healthier more productive workforce. These clinics are paid for directly by the employer outside of traditional health insurance. Next Level accepts a flat monthly fee for managing the staffing, equipping, and reporting for these clinics. Pricing is dependent on hours of operation, staffing requirements, and scope.

### **On-site Clinics can provide the following services:**

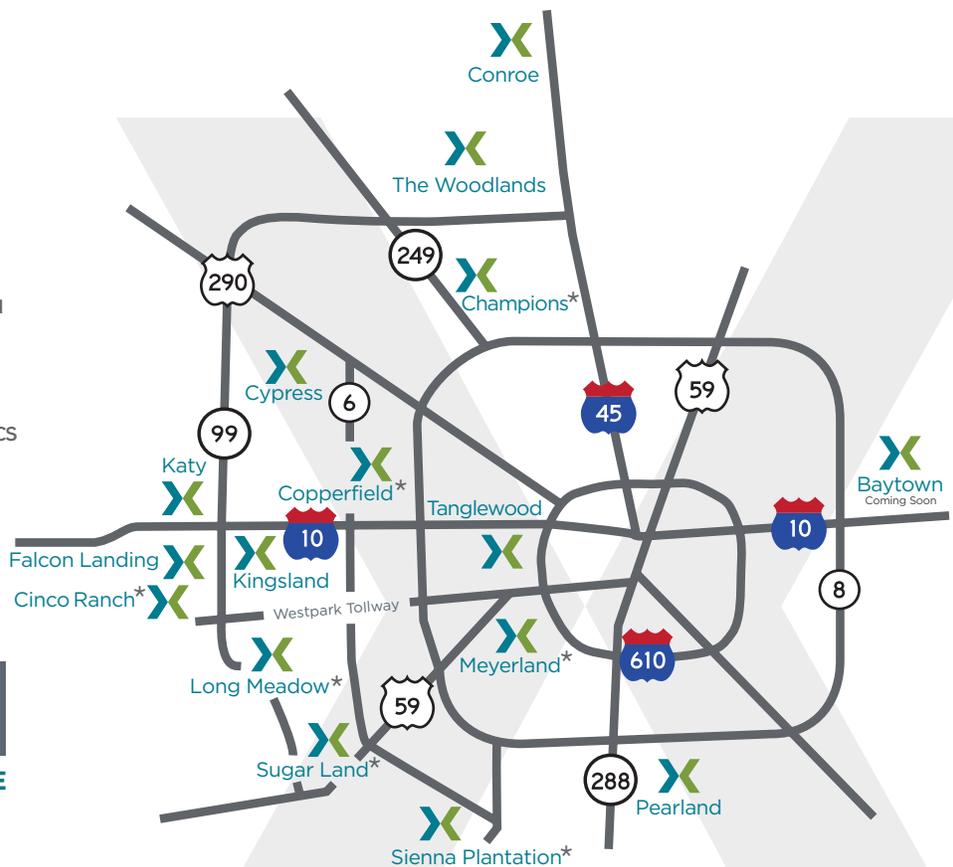

- Annual Physical Examinations
- Primary Care for chronic health conditions
- Urgent Care for acute illness or injuries
- Work Injury Care
- Weight Loss Counseling
- Smoking Cessation
- Pre-employment Physicals
- Biometric Testing and Health Risk Assessments
- Other services can be outsourced to our partners depending on the needs of the employer

Let our Employer Solutions team help you determine if an on-site clinic makes sense for your organization.

# Locations

There are fifteen Next Level locations throughout Houston, so there's sure to be a Next Level Urgent Care nearby when you need us most. What's more, we're open 9am-9pm, 7 days a week, with several clinics opening at 7am\* for your convenience.

[nextlevelurgentcare.com](http://nextlevelurgentcare.com)

## Option A- Full Service Onsite Clinic

Employer would provide the clinic space. Next Level would provide architectural support, hiring, training, staffing, supplying and ongoing management. Employer would decide the types of services offered, Hours of Operation, and level of onsite providers (see Needs Assessment Questionnaire)

Pricing would be provided on a flat fee basis

## Option B- Virtual Onsite Clinic using CareXtend technology

Using State of the Art Equipment, Next Level can install a one room "clinic" in a location designated by Employer. The room would be staffed with a Medical Assistant who can connect the patient with a physician and perform any required testing or examination assists.

Acute Care and Primary Care can be included in the scope of services.

Immunizations, Rapid tests including flu, strep, and urinalyses can be performed, bloodwork can be drawn.

The hours of the clinic can be tailored to meet needs.

Pricing includes an implementation fee which includes installation of all furnishings and equipment necessary for operations.

Monthly Fee is based upon needs assessment and hours

## Option C- Nearsite Care

### Nearsite Acute Care

For the convenience of the staff, Next Level can provide acute care at any of our 15 (soon to be 16) current locations. See map for location start times. All locations are open until 9pm nightly.

Time of Service Payment for Visits plus monthly pricing based on number of participants

### Nearsite Add-on Primary Care

If Acute Care Service is purchased, the option to add wellness and primary care services for all members of the group is available for an additional fee per covered person/month. The time of service payment applies. These are scheduled services (not walk-in). This plan includes: One Annual Wellness Physical Examination including the following labwork: CBC, CMP, Lipids, HgbA1C, and Basic Pap for females. One HRA survey. This does not include Pediatric Wellness

### Notes:

Lab Services and Durable Medical Equipment would be pass-through or billed directly to provider

All options require at least one year contract term

# Occupational Medicine

When it comes to Work Injury Care, why choose **Next Level WorX**?

## Our Care

- The average waiting room time in our clinics is less than 10 minutes
- Wait times can be reduced even further by getting in line before patients arrive, using our mobile app
- We have Orthopedic consultants on staff to avoid unnecessary specialist referrals
- All medical technicians and providers have been trained in splinting and casting by veteran orthopedic cast technicians
- We do not own physical therapy and only utilize PT when it is appropriate for the patients
- We pride ourselves on clean, well-kept facilities that provide a comfortable place for treatment
- We have multiple physicians on staff with deep work comp experience and certifications to determine MMI/IR

## Our Communication

- We provide an online portal so that employers and adjusters can find documents they are looking for as soon as they become part of our chart
- We utilize eScreen for convenient real-time reporting of post-accident drug testing
- We have designated account specialists and physicians who can provide unparalleled response times

## Our Commitment

- We get patients back to work quickly
- We utilize non-prescription medications whenever possible
- We follow ODG Guidelines

Allow our **WorX** program to improve your employee care and protect your bottom line.

# Specialty Physical Exams

## Employee Physicals

Next Level can create a physical evaluation program designed to meet the requirements of your industry standards. To provide a service that is easy for employers and employees, we designate an Employer Accounts Coordinator to assist in scheduling and reporting for every specialty physical client.

### Services include:

- DOT Physicals
- Non-DOT Physicals
- Return to Duty Physicals
- First Responder Physicals
- Comprehensive Pre-employment Physicals
- Fitness for Duty Physicals
- Fully Customized Physical Evaluations

## Employee Screenings

Next Level WorX screening programs can help keep your worksite healthy, safe and compliant. If you do not see the screening your company requires on the list below, please ask our Employer Solutions team to see if this is a service we can add for your employees.

- Vision screening (near, far, horizontal field of vision, color blindness)
- Drug testing: urine, hair, breath alcohol, custom testing (for clients utilizing WorX for injuries)
- Pulmonary Functioning Testing/Spirometry
- Hearing Test/Audiometry
- Silica Testing
- TB Testing

# Our Team

Our team of dedicated doctors and health services professionals are committed to ensuring you, and your employees, get the best care possible.
