

For Immediate Release

GENE BY GENE LABORATORY PARTNERS WITH LOCAL
URGENT CARE CLINIC TO GET HOUSTON BACK TO WORK

Houston, Texas – Houston-based laboratory Gene By Gene has turned the attention of its highly-skilled team of professionals to the needs of its hometown community during the novel coronavirus pandemic to provide testing services necessary to help Houston mitigate the spread of COVID-19 and to help businesses with their return to work programs.

Part of Gene By Gene’s efforts to help Houston businesses includes a strategic alliance with the Houston based clinic Next Level Urgent Care to provide physician oversight and specimen collection for employers. This strategic alliance between Gene By Gene and Next Level Urgent Care means Houston businesses can quickly, efficiently, cost-effectively, and safely test employees and not wait days to receive results. Employers have the option to have testing performed onsite at their place of business or at one of Next Level Urgent Care’s clinics throughout the Houston area.

“Accurate and efficient testing services are essential for our local economy that has been hit hard by COVID-19 and a tumultuous oil market. Focusing on the needs of our community partners to help get Houston back on its feet was a no-brainer,” according to Bennett Greenspan, President and Founder of Gene By Gene. “This is our home, our community, and we are fortunate that the Gene By Gene laboratory team has the knowledge and skill set necessary to be a much-needed hometown resource.”

In addition to helping Houston businesses, Gene By Gene is offering its testing services to local nursing homes and surgery centers throughout Houston and its surrounding areas.

With the ability to process 800 tests a day, Gene By Gene will be scaling up to 1,000's a day over the next few weeks and expects to continue expanding capacity throughout the fall and winter, as needed. In addition to collaborating with partners on testing processes, Gene By Gene also has the ability to provide direct billing to insurance providers for services.

Businesses, nursing homes, and surgery centers interested in Gene By Gene's testing services can reach out via email at covid19@genebygene.com.
