Motor Vehicle Accidents: Patients can use medical insurance, or pay at the time of service. If you elect to use your medical insurance, please know that we will be more than happy to file the claim. If the claim is denied by your carrier, you will be financially responsible for the visit's full billed charges. You may also choose to pay at the time of service, which may be cheaper than trying to go through insurance or having it denied and owing more because of the insurance rates and not the normal contracted rates.
